## PART 319—FOREIGN QUARANTINE NOTICES

## ENTRY OF ORANGES, GRAPEFRUIT, AND MANILA MANGOES FROM MEXICO AUTHORIZED AFTER TREATMENT

It has been determined that shipments of fresh fruits of oranges, grapefruit, and Manila mangoes may now be safely admitted from Mexico in accordance with the regulations of the Fruit and Vegetable Quarantine No. 56 after they have been given the vapor-heat treatment described below, which has been found to be effective in eliminating possible infestation by fruitflies known to occur in Mexico, the insect pests which have been responsible for the exclusion of these fruits. While the results of the experiments so far conducted have been successful, it should be emphasized that inexactness and carelessness in operation may result in injury to fruit. In authorizing the entry of fruit treated in accordance with this requirement, it is

<sup>1</sup> Affects tabulation in appendix to Part 1—Administrative Regulations.

understood that the Department does not accept responsibility for fruit injury.

Authorization for the entry from Mexico of oranges, grapefruit, and Manila mangoes, subject to the prescribed treatment, is provided, therefore, in the following administrative instructions.

§ 319.56-2g *Administrative instructions; importation of oranges, grapefruit, and Manila mangoes authorized from Mexico subject to treatment.* Pursuant to the authority conferred upon the Chief of the Bureau of Entomology and Plant Quarantine by paragraph (a) of § 319.56-2 (Regulation 2 of Notice of Quarantine No. 56), on and after October 1, 1945, commercially sound fruit only of orange, grapefruit, and mango of the Manila variety, may be imported in accordance with the permit and other requirements of said quarantine after each shipment has been subjected to the vapor-heat treatment described below, carried out at locations and in treatment rooms approved by the Chief of the Bureau of Entomology and Plant Quarantine and performed under the supervision of a plant quarantine inspector of that Bureau.

(a) *Vapor-heat treatment method.* The vapor-heat treatment method consists in the use of a mixture of air, live steam, and water spray, or a mixture of heated air and water spray, or a mixture devised in any other way so as to give saturation and condensation conditions at the temperature used, which conditions must be satisfactory to the supervising inspector of the Bureau of Entomology and Plant Quarantine. The mixture shall be circulated throughout the fruit in a manner and in a volume satisfactory to the supervising inspector. The fruit shall be treated for a period of not less than 14 hours, during which time the temperature at the approximate center of the fruit shall be raised to 110° F. and shall be maintained at or above 110° for the last 6 hours of such treatment.

In the case of treating plants located in the interior of Mexico, those in interest must make advance arrangements for supervision of the treatments and approval of the plant, and give acceptable assurance that they will provide transportation and per diem for the inspectors without cost to the United States Department of Agriculture.

Fruit so set aside shall not be processed or packed except in accordance with instructions furnished by the Assistant Administrator, or by a Government agency if such fruit is to be purchased by such Government agency. The Assistant Administrator, or any Government agency purchasing such fruit, may issue specifications at any time as to the processing, packing, labeling, boxing, and strapping of the fruit to be acquired by such Government agency. The Assistant Administrator may issue specifications at any time as to the processing and packing of dried fruit and raisins to be sold and delivered in United States civilian trade channels; and in the event the Assistant Administrator issues such specifications, no person shall process or pack dried fruit or raisins for sale or delivery in the United States civilian trade channels except in accordance with the specifications issued by the Assistant Administrator.

(5) No dehydrator shall convert any quantity of grapes of the Thompson seedless, Muscat, or Sultana varieties into raisins by any method other than sun-drying, unless conversion of such quantity into raisins by such other method is specifically authorized by the Assistant Administrator in writing. Any such authorizations heretofore granted pursuant to the provisions of § 1407.2 (b)

(7) of War Food Order No. 17, as amended (8 F.R. 1706, 5793, 8795, 12042; 9 F.R. 2594, 4321, 4319, 8768, 9584; 10 F.R. 103, 1082, 10419), with respect to any of the aforesaid varieties of grapes which are produced in 1945 are hereby continued in full force and effect in accordance with their respective terms until and unless they are specifically amended, modified, or terminated by the Assistant Administrator.

(6) If the Assistant Administrator determines that any dried fruit or raisins set aside pursuant to this order is not required for a Government agency, the Assistant Administrator may release such dried fruit or raisins at any time by notice directed to the packer. So far as such action is consistent with the public interest and the promotion of the national defense, such releases shall be of such a character as to allow all packers substantially equal proportions of their packs of each fruit for sale to purchasers other than Government agencies.

(7) Any quantity of dried fruit or raisins allocated or released shall, unless otherwise specified, be withdrawn by the packer from the earliest reported stocks of such dried fruit or raisins.

(8) No person shall sell or deliver any quantity of dried fruit, raisins, or Zante currants with knowledge or reason to believe that such quantity, or any portion thereof, thus sold or delivered is to be used in violation of this order.

(c) *Audits and inspections.* The Assistant Administrator shall be entitled to make such audits and inspections of the books, records and other writings, premises or stocks of dried fruit, raisins, Zante currants, or the fresh fruit intended to be used in the manufacture of the aforementioned products, and to

make such investigations as may be necessary or appropriate, in the Assistant Administrator's discretion, to the enforcement or administration of this order.

(d) *Records and reports.* (1) The Assistant Administrator shall be entitled to obtain such information from, and require such reports and the keeping of such records by, any person, as may be necessary or appropriate, in the Assistant Administrator's discretion, to the enforcement or administration of the provisions of this order, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(2) Every person subject to this order shall, for at least two years (or for such period of time as the Assistant Administrator may designate), maintain an accurate record of his transactions in dried fruit, raisins, Zante currants, and the fresh fruit intended to be used in the manufacture of the aforementioned products, respectively.

(3) Each packer shall mail the reports, completely and correctly filled in, to the Assistant Administrator on forms numbered FDO 16-A to FDO 16-G, for the respective dried fruit, raisins, and Zante currants indicated thereon not later than three days after the close of the period, from the first day to the fifteenth day, and the close of the period from the sixteenth day to the last day of each month, inclusive.

(e) *Petition for relief from hardship.* Any person affected by this order who considers that compliance herewith would work an exceptional or unreasonable hardship on him may file a petition for relief with the Order Administrator. Such petition shall be addressed to Order Administrator, WFO 16, United States Department of Agriculture, Fruit and Vegetable Branch, Production and Marketing Administration, Washington 25, D. C. Petitions for such relief shall be in writing and shall set forth all pertinent facts and the nature of the relief sought. The Order Administrator may take any action with reference to such petition which is consistent with the authority delegated to him by the Assistant Administrator. If the petitioner is dissatisfied with the action taken by the Order Administrator on the petition, he shall obtain, by requesting the Order Administrator therefor, a review of such action by the Assistant Administrator. The Assistant Administrator may, after said review, take such action as he deems appropriate, and such action shall be final. The provisions of this paragraph (e) shall not be construed to deprive the Assistant Administrator of authority to consider originally any petition for relief from hardship submitted in accordance herewith. The Assistant Administrator may consider any such petition and take such action with reference thereto that he deems appropriate, and such action shall be final.

(f) *Violations.* Any person who violates any provision of this order may, in accordance with the applicable procedure, be prohibited from receiving, making any deliveries of, or using dried fruit, raisins, Zante currants, or the

fresh fruit intended to be used in the manufacture of the aforementioned products. In addition, any person who willfully violates any provision of this order is guilty of a crime and may be prosecuted under any and all applicable laws. Further, civil action may be instituted to enforce any liability or duty created by, or to enjoin any violation of, any provision of this order.

(g) *Delegation of authority.* The administration of this order and the powers vested in the Secretary of Agriculture, insofar as such powers relate to the administration of this order, are hereby delegated to the Assistant Administrator. The Assistant Administrator is authorized to redelegate to any employee of the United States Department of Agriculture any or all of the authority vested in him by this order.

(h) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise provided herein or in instructions issued by the Assistant Administrator, be addressed to the Order Administrator, WFO No. 16, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C.

(i) *Effective date.* This order shall become effective at 12:01 a. m., e. w. t., September 25, 1945. With respect to violations, rights accrued, liabilities incurred, or appeals taken under said War Food Order No. 16, as amended, prior to the effective time of the provisions hereof, the provisions of the said War Food Order No. 16, as amended, in effect prior to the effective time hereof shall be deemed to continue in full force and effect for the purpose of sustaining any proper suit, action, or other proceeding in regard to any such violation, right, liability, or appeal.

**AUTHORITY:** Regulations in this chapter unless otherwise noted at the end of documents affected, issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236, 56 Stat. 177, 58 Stat. 827; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; E.O. 9599, 10 F.R. 10155; W.P.B. **PART 944—REGULATIONS APPLICABLE TO THE OPERATIONS OF THE PRIORITIES SYSTEM**  
[Priorities Reg. 29, Interpretation 1]

**EFFECT OF AA RATINGS AFTER SEPTEMBER 30**

The following interpretation is issued with respect to Priorities Regulation 29:

(a) Paragraph (c) (1) of Priorities Regulation 29 provides that the AA rating system remains effective as to deliveries until the end of September 1945. After that time, AA ratings will be completely ineffective, and must be disregarded by suppliers. This includes AA ratings on orders which were originally accepted and scheduled for delivery by September 30, but which, due to circumstances beyond the supplier's control are delayed in delivery. These orders are to be treated as unrated.

(b) Similarly, where a supplier receives a purchase order calling for delivery before October 1, but is unable to schedule it for delivery at that time and schedules it for delivery after September 30, he must treat it as an unrated order under paragraph (c) (2) of Priorities Regulation 29.

(c) Suppliers, of course, must follow the requirements of Priorities Regulation 1 in accepting and scheduling AA rated orders for delivery before October 1.

(d) The same rules apply to treatment of authorized controlled material orders under paragraph (d) of Priorities Regulation 29.

(e) However, under paragraph (c) (2) of Priorities Regulation 29, a different rule applies to AA ratings on orders for textiles and related items covered by Schedule A of Order M-328. These AA ratings remain effective until September 30 both on orders for delivery before and after that date. Orders with AA ratings must, until September 30, be accepted and scheduled as in the past, even if they call for delivery after September 30. After that date, the AA ratings are ineffective and orders bearing them must be treated as unrated unless specifically re-rated AAA, MM, or CC.

**PART 1010—SUSPENSION ORDERS**

[Suspension Order S-696, Amdt. 1]

**ALPHA CLUB—ALPHA RESTAURANT**

The Alpha Club, Philadelphia, Pennsylvania, did construction work at 1911 Chestnut Street, in violation of Conservation Order L-41, and on or about September 14, 1944, filed two applications for permission to obtain a new gas range, a broiler and a fryer costing \$570.00 and one new Universal dishwasher at a cost of \$595.00 for use in the building at 1911 Chestnut Street, Philadelphia. These applications were filed under the name of the non-existent Alpha Restaurant and contained false and misleading statements. Suspension Order No. S-696 was issued against the Alpha Club—Alpha Restaurant on January 22, 1945. In view of the fact that Conservation Order L-41, as amended, on September 7, 1945, raises the limitation on this type of construction to \$5,000, the Chief Compliance Commissioner has directed that the suspension order be amended to allow additional construction up to but not exceeding \$5,000.

In view of the foregoing, it is hereby ordered, that: § 1010.696 *Suspension Order No. S-696*, issued January 22, 1945, be amended by the substitution of the following paragraph (a) for the present paragraph (a):

(a) Neither the Alpha Club, its successors or assigns, nor any other person shall do any construction on the premises at 1911 Chestnut Street, Philadelphia, Pennsylvania, including putting up or altering the structure located on said premises, to exceed \$5,000, unless hereafter specifically authorized in writing by the War Production Board.

[Suspension Order S-822]

VERNA'S TAVERN, MULLIN CONSTRUCTION CO.,  
AND W. G. BRUST

Gaitano and Verna Marra, doing business as Verna's Tavern, Seattle, Washington, acting through W. G. Brust, Republic Building, Seattle, Washington, their architect, applied to the War Production Board in October, 1944, for permission to build a one story restaurant at 10440 E. Marginal Way, Seattle, at an estimated cost of \$9400.00, and permission was granted. Thereupon the Marra's entered into a contract with J. L. Mullin, doing business as Mullin Construction Company, of 3516 JunEAU Street, Seattle, Washington, to construct a two story building to house a tavern at the same address for \$17,559.00, exclusive of the heating system, which was to cost \$1270.00. Gaitano and Verna Marra and W. G. Brust from the beginning intended to construct a tavern at a cost greatly in excess of \$9400.00, and their representations respecting use and estimated cost in the application were wilfully false. J. L. Mullin had actual knowledge of the War Production Board authorization before he contracted to build the building, and knew that his contract was in excess of the authorization. During the course of construction the parties agreed to install two apartments on the second floor, for which no authorization was asked or issued. The foregoing construction was in wilful violation of Conservation Order L-41, and has diverted critical materials to uses not authorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.822 *Suspension Order No. S-822*. (a) Neither Gaitano Marra, Verna Marra, J. L. Mullin, W. G. Brust, their successors or assigns, nor any other person, shall do any construction on the premises at 10440 E. Marginal Way, Seattle, Washington, including putting up or altering the structure, unless hereafter specifically authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Gaitano Marra, Verna Marra, J. L. Mullin, W. G. Brust, or any of them, their successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production

Board, except insofar as the same may be inconsistent with the provisions hereof.

### Chapter XI—Office of Price Administration

#### PART 1305—ADMINISTRATION

[SO 108, Amdt. 5]

#### MANUFACTURERS' MAXIMUM AVERAGE PRICES FOR CERTAIN ITEMS OF APPAREL AND AP- PAREL ACCESSORIES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Supplementary Order 108 is amended in the following respects:

1. Section 4 (a) is amended to read as follows:

(a) *When you must file a maximum average price chart—(1) General filing.* On or before June 20, 1945, if you have base periods under section 2, you must file with your OPA District Office<sup>1</sup> two copies (signed by an owner, officer or principal) of your chart of maximum average prices. (If you made no deliveries prior to December 31, 1944 you need not file a chart. The order issued to you upon application under section 9 will contain your chart.) On and after July 2, 1945 you may not deliver any item covered by this order until you have received acknowledgment from the OPA of the filing of your chart.

(2) *Special filing.* On or before October 20, 1945, if you have base periods under section 2 for any category created

by this amendment you must file with your OPA District Office two copies (signed by an owner, officer or principal) of a statement containing for each such category the information required by paragraph (b) of this section.

However, if you cannot supply the information required by paragraph (b) (3) for all of your base periods by October 20, 1945, you must file a statement by October 20, 1945, containing the information required by paragraph (b) for your base periods for the 3rd and 4th quarters and you must file the remainder of the required information on or before November 20, 1945.

On and after October 30, 1945, you may not sell or deliver any items in any category created by this amendment until you have received an acknowledgment from the Office of Price Administration of the receipt of the statement required to be filed by October 20, 1945. On and after January 1, 1946, you may not sell or deliver any item in any category created by this amendment until you have received an acknowledgment from the Office of Price Administration of the receipt of all the information required by paragraph (b) of this section.

2. Section 9 (a) is amended by amending the first two paragraphs thereof to read as follows:

(a) *Persons who are unable to establish base periods under section 2.* Except in the cases of transfers of business as provided in section 10, if you made no deliveries at all in any particular category between January 1, 1943 and December 31, 1944, you may not deliver any items in that category after September 30, 1945 until you have received an order from the Office of Price Administration establishing a maximum average price for that category.

However, if you made your first delivery of any item in that category between December 31, 1944 and April 28, 1945 and if you file your application under this section and receive an acknowledgment from the Office of Price Administration dated on or before September 30, 1945, you may deliver items in that category at ceiling prices established under the appropriate regulation without regard to the requirements of this order, until an order has been issued to you under this section: Except that, until an order is issued, you must not deliver any item in that category at a price higher than the highest maximum price you have already established for any item in that category which you delivered before April 28, 1945. If you have not received an acknowledgment of the receipt of your application dated before October 1, 1945 you may not deliver any items in the category after September 30, 1945 until an order has been issued to you under this section.

3. Section 9 (b) is amended by amending the first two paragraphs thereof to read as follows:

PART 1367—SILVER  
[RMPR 193; Amdt. 1]

#### SILVER

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation No. 198 is amended in the following respects:

1. Section 3 is revised to read as follows:

SEC. 3. *Maximum prices for standard commercial bars*—(a) *Definitions*. (1) "Seller's most favorable basing point" means the basing point to which the cost of transportation from the point of shipment is lowest.

(2) "Point of shipment" means the point at which the silver is first loaded on a conveyance for shipment directly to the buyer, except that, in the case of imports, it means the port of entry, or the station of the common carrier nearest to the point on the international boundary at which the shipment first enters the continental United States.

(b) *Base prices*. The maximum price for standard commercial bars, delivered, free of all charges, to the seller's most favorable basing point, shall be:

71.111 cents per fine troy ounce.

(c) *Basing points*. The following basing points, or free delivery points, are established for standard commercial bars:

New York, N. Y.; San Francisco, California; Philadelphia, Pa.; Denver, Colorado.

(d) *Delivered price*. If delivery is made to the buyer at any point other than the seller's most favorable basing point, the maximum delivered price shall be the applicable one of the prices set out in paragraph (b) of this section, plus the cost of transportation from the point of shipment to the destination, minus the cost of transportation from the point of shipment to the seller's most favorable basing point.

(e) *Price f. o. b. point of shipment*. Standard commercial bars may be sold f. o. b. point of shipment. The maximum price f. o. b. point of shipment is the maximum delivered price at the seller's most favorable basing point, minus the cost of transportation from the point of shipment to the seller's most favorable basing point.

(f) *Distributors' differentials*. A seller other than a refiner may sell or deliver standard commercial bars in lots of less than 200,000 ounces at the base price set out in paragraph (b), plus the differentials established by this paragraph. Moreover such sales or deliveries at the prices provided in this paragraph may be f. o. b. the seller's shipping point rather than on the basis of the seller's most favorable basing point, and if the seller makes delivery to the buyer's place of business, he may add an amount not in excess of express charges.

17 F.R. 6933, 6939, 6948; 9 F.R. 5933.

Quantity differentials for sellers other than refiners are as follows:

	Cents
100,000 ounces up to but not including 200,000 ounces.....	.25
25,000 ounces up to but not including 100,000 ounces.....	.375
10,000 ounces up to but not including 25,000 ounces.....	.50
5,000 ounces up to but not including 10,000 ounces.....	.75
2,000 ounces up to but not including 5,000 ounces.....	1.25
Under 2,000 ounces.....	2.00

(g) *Refiners' differentials.* A refiner may add the following quantity differentials to his maximum prices for delivery of standard commercial bars in lots of less than 25,000 ounces at his most favorable basing point:

	Cents
10,000 ounces up to but not including 25,000 ounces.....	.50
5,000 ounces up to but not including 10,000 ounces.....	.75
2,000 ounces up to but not including 5,000 ounces.....	1.25
Under 2,000 ounces.....	2.00

(h) *Credit charges.* A seller of standard commercial bars may add his customary charges for the extension of credit beyond 10 days from date of invoice. However, no charge may be added for credit of shorter duration.

2. Section 4 (a) is revised to read as follows:

(a) *Maximum prices.* Maximum prices for semifabricated articles shall be determined by taking as a base the highest price charged by the seller during March, 1942 for the same commodity containing foreign silver and adding to this base price 36.125 cents per fine troy ounce of silver contained in the article to be priced.

3. Section 4 (c) is revised to read as follows:

(c) *Additions to base price.* To find the maximum price, take the base price, figured according to the rules in paragraph (b) of this section, and add 36.125 cents per fine troy ounce of silver contained in the article sold.

4. Section 5 (a) (1) is amended by the deletion of the last sentence thereof.

5. Section 7 is revised to read as follows:

SEC. 7. *Maximum prices for silver scrap.* The maximum price for silver scrap shall be 70.875¢ per fine troy ounce of silver contained, delivered free of all charges to the buyer's receiving point.

7. Section 13 is amended by the deletion of paragraphs (a) and (b) thereof.

8. Section 18 (a) is amended by the deletion of subparagraph (6) thereof.

Maximum Price Regulation 220 is amended in the following respects:

1. A new section designated § 1315.1557f is added to read as follows:

§ 1315.1557f *Maximum wholesalers' prices for industrial rubberized fabric gloves—(a) Applicability.* This section establishes maximum prices for all sales by wholesalers of industrial rubberized fabric gloves.

(b) *Maximum wholesalers' prices for sales of industrial rubberized fabric gloves—(1) How the wholesaler determines the maximum price for such gloves.* The maximum price for a sale by wholesalers of industrial rubberized fabric gloves shall be determined by multiplying the wholesaler's purchase price (computed in accordance with subparagraph (2) below) of the gloves being priced by the percentage the wholesaler used in computing his March 1942 selling price for a comparable rubberized fabric glove (chosen and computed in accordance with subparagraph (3) below).

(2) *How the wholesaler determines his purchase price.* The purchase price to him of the gloves being priced which the wholesaler must use in computing his maximum price shall be determined as follows:

(i) The wholesaler shall first determine the net invoice cost before cash discounts of the gloves being priced, if available, not to exceed his supplier's maximum price to the wholesaler; or

(ii) If actual cost is not available, the net invoice cost before cash discounts of

the gloves being priced, as estimated by the wholesaler's supplier; Provided, that the wholesaler has no reason to believe that the price so estimated exceeds the supplier's maximum price to the wholesaler;

(iii) If the cost determined under subdivisions (i) or (ii) is not on a delivered basis, the wholesaler shall add the actual cost of transportation to his place of business.

(3) *How the wholesaler determines the percentage which must be used in computing his maximum price.* The percentage which the wholesaler must apply to his net purchase price of the gloves being priced to determine their maximum price shall be determined as follows:

(i) The wholesaler shall first determine what rubberized fabric glove he must use in determining the percentage. That glove shall be the first applicable of the following gloves which he delivered or offered for delivery during March 1942.

(a) The rubberized fabric glove which is the same as the glove being priced.

(b) The rubberized fabric glove which has the same use as the glove being priced. If there is more than one glove which has the same use as the glove being priced, the wholesaler shall use that one of those gloves whose purchase price is nearest to the purchase price of the glove being priced. The purchase price of both gloves shall be determined in accordance with paragraph (b) (2) of this section.

(c) The rubberized fabric glove whose purchase price is the nearest to the purchase price of the glove being priced. The purchase price of both gloves shall be determined in accordance with paragraph (b) (2) of this section.

(ii) The wholesaler shall then determine the highest price at which he, during March 1942, delivered, or if no delivery was made, at which he then offered to deliver, the gloves chosen in accordance with subdivision (i) above, to a purchaser of the same class.

(iii) The wholesaler shall then determine the percentage by dividing his March 1942 selling price of the glove chosen as a basis for pricing (under subparagraph (3) (i) above) by the purchase price of that glove that was in effect to him on the date on which he established its March 1942 selling price. The purchase price shall be determined in accordance with paragraph (b) (2) of this section.

(c) *Maximum prices for sales by wholesalers of rubberized fabric gloves that cannot be established under paragraph (b).* The maximum price for sales of rubberized fabric gloves by a wholesaler who cannot establish his maximum prices under paragraph (b) above shall be established under § 1315.1558.

2. In § 1315.1567 (a) items numbered (11) and (12) are respectively renumbered (12) and (13) and a new item (11) is added to read as follows:

(11) *Industrial rubberized fabric gloves.*

This amendment shall become effective September 29, 1945.

PART 1436—PLASTIC AND SYNTHETIC RESINS

[MPR 406, Amdt. 9]

SYNTHETIC RESINS AND PLASTIC MATERIALS AND SUBSTITUTE RUBBER

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation No. 406 is amended in the following respects:

1. The listing for section 20 in the table of contents is amended to read "Adjusted prices for synthetic resins containing 50 percent or more of rosin." and the listing for section 21 is deleted.

2. Section 21 is revoked.

3. Section 20 is amended to read as follows:

Sec. 20. Adjusted prices for synthetic resins containing 50 percent or more of rosin. (a) Applicability. This section applies to any synthetic resin, including ester gum, for which the manufacturer's maximum prices have been established prior to September 29, 1945 and whose composition is such that at least 50 percent by weight of its components is made up of resin, gum, wood, or both. Where a synthetic resin is sold in solution, the weight of the solvent shall not be included in computing the weight of the components.

(b) Manufacturer's maximum prices.

(1) The maximum price for a sale by the manufacturer of such a synthetic resin for which the maximum price has been established prior to September 29, 1945 shall be the maximum price established for such a sale on September 28, 1945 plus a dollar-and-cent amount per pound of synthetic resin computed as follows:

(i) For each synthetic resin list to the nearest one thousandth the number of pounds of each grade of each type (wood or gum) of rosin used to make one pound of the synthetic resin.

(ii) Multiply the number of pounds of each grade of each type by the adjustment factor for that grade from (2) below.

(iii) Add the products of step (ii) to find the dollar-and-cent amount of increase per pound of synthetic resin. Round to the nearest hundredth of a cent.

(2) Adjustment factor. In the case of wood rosin other than FF, the adjustment factor is the same regardless of the time the manufacturer's maximum price for the synthetic resin in effect on September 28, 1945 was first established. In the case of FF wood rosin and gum rosin, the adjustment factor depends on the time the manufacturer's maximum price in effect on September 28, 1945 for the synthetic resin was first established.

(i) This table of factors for gum rosin applies only to synthetic resins sold or offered for sale in March 1942 and whose maximum price in effect on September 28, 1945 is the same as the March 1942 price. The table for wood rosin (other than FF) applies irrespective of the date the manufacturer's maximum price for the synthetic resin in effect on September 28, 1945 was first established.

(ii) This table of factors applies to FF wood rosin in synthetic resins:

	Per pound FF wood rosin in cents
Date manufacturer's maximum price for synthetic resin in effect on September 28, 1945, first established:	
Prior to November 20, 1944.....	1.32
After November 19, 1944, and prior to June 18, 1945.....	1.00
After June 17, 1945.....	0.00

(iii) This table is to be used to compute the adjustment factor for gum rosin in synthetic resins not sold or offered for sale in March 1942 or whose maximum price has been increased over the March 1942 price. The adjustment factor per pound of rosin is determined by subtracting from the price per pound of rosin shown in the table, the average market price per pound for the same grade of gum rosin on the Savannah, Georgia, Cotton and Naval Stores Exchange during the calendar month in which the maximum price for the synthetic resin in effect on September 28, 1945 was first established:

Grade:	Price per pound in cents

WW.....	7.72
WG.....	7.45
N.....	7.20
M.....	7.04
K.....	7.02
L.....	6.98
H.....	6.98
G.....	6.96
F.....	6.92
E.....	6.82
D.....	6.29
B.....	6.22

(3) *Examples.* (i) Manufacturer's maximum prices for a synthetic resin in effect on September 28, 1945 which uses .750 lbs. K gum rosin per pound resin were first established in July 1944. The average price per pound for K grade on the Savannah Exchange in July 1944 was 5.53¢, the price for K grade in the table in (2) (iii) is 7.02¢. The adjustment factor per pound K rosin is 7.02¢ minus 5.53¢ or 1.49¢ per pound rosin. The dollar-and-cent adjustment per pound resin is .750 x 1.49¢ or 1.12¢.

(ii) Manufacturer's maximum prices for a synthetic resin in effect on September 28, 1945, using .200 lbs. FF wood rosin and .500 lbs. K wood rosin were first established in August 1944. From (2) (ii) the adjustment factor for FF is 1.32¢ per pound, and the dollar-and-cent adjustment per pound resin is .200 x 1.32¢ or .264¢. From (2) (i) the adjustment factor for K wood rosin is 1.80¢, and the dollar-and-cent adjustment per pound resin is .500 x 1.80¢ or .900¢. The total adjustment per pound resin is .264¢ plus .900¢ or 1.16¢.

(iii) A resin sold in March 1942 whose maximum price in effect on September 28, 1945, is the March 1942 price uses .500 lbs. WW gum and .300 lbs. X wood rosin per pound resin. From (2) (i) the adjustment on account of WW gum is .500 x 3.07¢, on account of X wood is .300 x .75¢, or a total adjustment of

1.535¢ plus .225¢ or 1.76¢ per pound synthetic resin.

(c) *Manufacturers' reports.* Prior to the first delivery of a synthetic resin covered by this Sec. 20 at a price higher than the maximum price in effect on September 28, 1945, the manufacturer shall mail to the Rubber, Chemicals and Drugs Price Branch, Office of Price Administration, Washington 25, D. C., a report containing:

(1) A description of the synthetic resin together with the maximum prices in effect for his sales of the synthetic resin on September 28, 1945, and a statement as to how and when these were established.

(2) The adjusted maximum price under this Sec. 20, with an explanation of how the adjusted maximum price was calculated showing the number of pounds of each grade of each type of rosin used to make one pound of synthetic resin, the adjustment factor used for each grade, and the dollar-and-cent adjustment for each grade.

(3) Statement as to the total weight of the components used (excluding solvents where the synthetic resin is sold in solution) to make one pound of synthetic resin.

(d) *Resellers.* A reseller of synthetic resin priced by the manufacturer under this section 20 may add, on and after the effective date of this section 20, to his maximum price per unit as of September 28, 1945, his increased acquisition cost per unit under this section 20. His increased acquisition cost per unit is the increase (in dollars and cents) in the price to him per unit over his supplier's maximum price per unit on September 28, 1945, as determined from the invoice required to be furnished him under paragraph (e) below.

(e) *Invoices.* The manufacturer or reseller of a synthetic resin for which maximum prices are established under this section 20 shall show as separate items on all invoices therefor:

(1) The maximum price in effect for the sale of the synthetic resin on September 28, 1945.

(2) The adjusted selling price (not in excess of the maximum price under this section 20).

(3) A statement that under OPA regulations, a reseller may add to his maximum price as of September 28, 1945, the increase shown by the invoice.

An invoice containing the above required information shall be furnished the buyer prior to payment by him.

This amendment shall become effective September 29, 1945.

NOTE: The reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 24th day of September 1945.

## PART 1499—COMMODITIES AND SERVICES

[SR 14F, Amdt. 8]

### ROSIN PRODUCTS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Supplementary Regulation No. 14F is amended in the following respects:

1. The table of contents is amended in the following respects:

The listing for section 25 is amended to read as follows: "25. Steam distilled turpentine, dipentene and limed rosin."

The listing for section 15 is amended to read as follows: "15. Rosin products."

2. Section 15 is amended to read as follows:

Sec. 15. *Rosin products*—(a) *Applicability.* This section applies to any product other than limed rosin subject to the General Maximum Price Regulation whose composition is such that at least 50 percent by weight of its components is made up of rosin, gum, wood or both. Such a product will be referred to as a rosin product. Where a rosin product is sold in solution the weight of the solvent shall not be included in computing the weight of the components.

(b) *Rosin products priced before September 29, 1945*—(1) *Manufacturer's maximum prices.* (i) The maximum price for a sale by the manufacturer of a rosin product for which the maximum price has been established prior to September 29, 1945 shall be the maximum price established for such a sale on September 28, 1945 plus a dollar-and-cent amount per pound of rosin product computed as follows:

(a) For each rosin product list to the nearest one thousandth the number of pounds of each grade of each type (wood or gum) of rosin used to make one pound of the rosin product.

(b) Multiply the number of pounds of each grade of each type by the adjustment factor for that grade from (ii) below.

(c) Add the products of step (b) to find the dollar-and-cent amount of increase per pound of rosin product. Round to the nearest hundredth of a cent.

(ii) *Adjustment factor.* In the case of wood rosin other than FF, the adjustment factor is the same regardless of the time the manufacturer's maximum price for the rosin product in effect on September 28, 1945, was first established. In the case of FF wood rosin and gum rosin, the adjustment factor depends on the time the manufacturer's maximum price for the rosin product in effect on September 28, 1945, was first established.

(a) This table of factors for gum rosin applies only to a rosin product sold or offered for sale in March 1942 and whose maximum price in effect on September 28, 1945, is the same as the March 1942 price. The table for wood rosin (other than FF) applies irrespective of the date

the manufacturer's maximum price for the rosin product in effect on September 28, 1945, was first established.

(b) This table of factors applies to FF wood rosin in rosin products:

	Per pound FF wood rosin in cents
Date manufacturer's maximum price for rosin product in effect on September 28, 1945, first established:	
Prior to November 20, 1944	1.32
After November 19, 1944 and prior to June 18, 1945	1.00
After June 17, 1945	0.00

(c) This table is to be used to compute the adjustment factor for gum rosin in a rosin product not sold or offered for sale in March 1942 or whose maximum price has been increased over the March 1942 price. The adjustment factor per pound of rosin is determined by subtracting from the price per pound of rosin shown in the table, the average market price per pound for the same grade of gum rosin on the Savannah, Georgia, Cotton and Naval Store Exchange during the calendar month in which the maximum price for the rosin product in effect on September 28, 1945, was first established.

(iii) Examples. (a) Manufacturer's maximum prices for a rosin product in effect on September 28, 1945, which uses .750 pounds K gum rosin per pound rosin product were first established in July 1944. The average price per pound for K grade on the Savannah Exchange in July 1944 was 5.53¢, the price for K grade in the table in (ii) (c) is 7.02¢. The adjustment factor per pound K rosin is 7.02¢ minus 5.53¢ or 1.49¢ per pound rosin. The dollar-and-cent adjustment per pound rosin product is .750 x 1.49¢ or 1.12¢.

(b) Manufacturer's maximum prices for a rosin product in effect on September 28, 1945, using .200 pounds FF wood rosin and .500 pounds K wood rosin were

first established in August 1944. From (ii) (b) the adjustment factor for FF is 1.32¢ per pound, and the dollar-and-cent adjustment per pound rosin product is .200 x 1.32¢ or .264¢. From (ii) (a) the adjustment factor for K wood rosin is 1.80¢, and the dollar-and-cent adjustment per pound rosin product is .500 x 1.80¢ or .900¢. The total adjustment per pound rosin product is .264¢ plus .900¢ or 1.16¢.

(c) A rosin product sold in March 1942 whose maximum price in effect on September 28, 1945, is the March 1942 price uses .500 pounds WW gum and .300 pounds X wood rosin per pound rosin product. From (ii) (a) the adjustment account of WW gum is .500 x 3.07¢, on account of X wood is .300 x .75¢, or a total adjustment of 1.535¢ plus .225¢ or 1.76¢ per pound rosin product.

(iv) Manufacturers' reports. Prior to the first delivery of a rosin product covered by this subparagraph (1) at a price higher than the maximum price in effect on September 28, 1945, the manufacturer shall mail to the Rubber, Chemicals and Drugs Price Branch, Office of Price Administration, Washington 25, D. C., a report containing:

(a) A description of the rosin product together with the maximum prices in effect for his sales of the rosin product on September 28, 1945, and a statement as to how and when these were established.

(b) The adjusted maximum price under this subparagraph (1), with an explanation of how the adjusted maximum price was calculated showing the number of pounds of each grade of each type of rosin used to make one pound of rosin product, the adjustment factor used for each grade, and the dollar-and-cent adjustment for each grade.

(c) Statement as to the total weight of the components used (excluding solvents where the rosin product is sold in solution) to make one pound of rosin product.

(v) Resellers. A reseller of a rosin product priced by the manufacturer under this subparagraph (1) may add, on and after the effective date of this section 15, to his maximum price per unit as of September 28, 1945 his increased acquisition cost per unit under this section 15. His increased acquisition cost per unit is the increase (in dollars and cents) in the price to him per unit over his supplier's maximum price per unit on September 28, 1945 as determined from the invoice required to be furnished him under paragraph (d) below.

(c) Rosin products priced after September 28, 1945. In first determining a maximum price for a rosin product after September 28, 1945, by reference to the same or similar rosin product under § 1499.2 or by reference to a comparable rosin product under § 1499.3, the seller may use the adjusted maximum price determined under this section 15 or section 20 of Maximum Price Regulation No. 406 for the same, similar, or comparable rosin product.

(d) Invoices. The manufacturer or reseller of a rosin product for which maximum prices are established under this section 15 shall show as separate items on all invoices therefor:

(1) The maximum price in effect for the sale of the rosin product on September 28, 1945.

(2) The adjusted selling price (not in excess of the maximum price under this section 15).

(3) A statement that under OPA regulations a reseller may add to his maximum price as of September 28, 1945, the increase shown by the invoice.

An invoice containing the above required information shall be furnished the buyer prior to payment by him.

(e) The adjustment provision of § 1499.75 (a) (18) of Supplementary Regulation No. 15 to the General Maximum Price Regulation shall not be applicable to rosin products covered by this section 15.

3. Section 25 is amended to read as follows:

Sec. 25. Steam distilled turpentine, dipentene and limed rosin—(a) Maximum prices. The maximum prices for sales of steam distilled turpentine, dipentene and limed rosin shall be those established under any other provisions of the General Maximum Price Regulation, or those set forth below, whichever are higher:

(1) Sales by producers—(i) Steam distilled turpentine and dipentene—(a) Base maximum prices.

Steam distilled turpentine, \$0.63 per gallon in tank cars f. o. b. plant.

Dipentene, \$0.49 per gallon in tank cars f. o. b. plant.

(b) Differentials. Maximum prices for sales in other containers and quantities shall be established by applying to the base prices set forth in (a) above, the dollar and cent differentials, discounts and allowances established for such sales under any other provisions of the General Maximum Price Regulation.

(ii) Limed rosin. The maximum price per 100 pounds net for a producer's sales of limed rosin to any class of purchasers shall be the producer's maximum price per 100 pounds net for sales to that class of purchasers of the grade of rosin being limed plus an addition determined as follows:

Not more than 2 per cent lime content—20¢.

Lime content more than 2 per cent but less than 3 per cent—20¢ plus 1¢ for each .1 per cent lime content over 2 per cent.

Lime content of 3 per cent or more—30¢.

(2) Sales by resellers. A reseller of steam distilled turpentine, dipentene or limed rosin acquired under this section 25 at a cost higher than the supplier's maximum price established under any other provisions of the General Maximum Price Regulation, may add to his maximum price per unit established under any other provisions of the General Maximum Price Regulation for the higher cost product being priced, the increase (in dollars and cents) in the price to him per unit over his supplier's maximum price per unit established under any other provisions of the General Maximum Price Regulation as determined from the invoice required to be furnished him by paragraph (b) below. The resulting figure is the reseller's maximum

price per unit under this subparagraph (2).

(b) *Invoices.* The producer or reseller shall show as separate items on all invoices for steam distilled turpentine, dipentene or limed rosin for which maximum prices are established under paragraph (a) above:

(1) The maximum price established for a sale of such product under any other provisions of the General Maximum Price Regulation.

(2) The adjusted selling price (not in excess of the maximum price under this section 25).

An invoice containing the above required information shall be furnished the buyer prior to payment by him:

This amendment shall become effective September 29, 1945.

NOTE: The reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 24th day of September 1945.

By § 8301.3 (b) (1) and § 8301.6 (a) of this part Reconstruction Finance Corporation is designated as the disposal agency for surplus aircraft and property peculiar to aircraft located within the continental United States, its territories and possessions. By § 8308.3 of Surplus Property Board Revised Regulation 8 (10 F.R. 9540, 10031, 11198) the War and Navy Departments are designated as the disposal agencies for certain surplus property located outside of the continental United States, its territories and possessions, and by Surplus Property Board Regulation 8, Order 1 (10 F.R. 7119) redelegation of their authority as such disposal agencies to the Office of the Army-Navy Liquidation Commissioner was approved. In order to avoid competition between the Reconstruction Finance Corporation and the Army-Navy Liquidation Commissioner in the Latin American market and to make aircraft available to that market, the Reconstruction Finance Corporation desires to delegate through the War and Navy Departments to the Office of the Army-Navy Liquidation Commissioner its authority with respect to the disposal to Latin American governments, organizations or residents, of whatever surplus aircraft may be brought to such Export

Sales Center or Centers as may be established for that purpose. Pursuant to section 8 of the Surplus Property Act of 1944 (58 Stat. 765, 50 U. S. C. App. Sup. 1611), *It is hereby ordered, That:*

1. The Surplus Property Board hereby approves of the delegation by Reconstruction Finance Corporation to the War Department and the Navy Department of authority to dispose of any surplus aircraft and property peculiar to aircraft, which is presently or may hereafter be located at any Export Sales Center or Centers established and maintained by the Departments or either of them in the continental United States, to any Latin American Government, organization, or resident for export to and use in Latin America. The Board also hereby approves of the redelegation by the War and Navy Departments of such authority to the Office of the Army-Navy Liquidation Commissioner, and of the redelegation by the Commissioner of such authority to a Government agency or to a person under the complete control either of the Commissioner or of a Government agency; but no redelegation of authority by the Commissioner to any other person shall become effective without prior approval of the Board. For the purposes of this order the term Latin America refers to and includes all of Mexico, the Caribbean area, Central America and South America except the United States territories and possessions.

2. The foregoing approval is granted upon the condition that notice is given to the Surplus Property Board on behalf of the War Department, the Navy Department and the Office of Army-Navy Liquidation Commissioner whenever any Export Sales Center is established, moved or discontinued.

3. Copies of all instruments delegating or redelegating the authority hereby approved shall be filed promptly with the Board.

This order shall become effective September 26, 1945.

Said declaration having been filed on the 3d day of August, 1945, and notice of filing having been duly given in the manner and form prescribed by Rule U-23 under said act and the Commission not having received a

request for hearing with respect to said declaration within the period specified in such notice, or otherwise, and not having ordered a hearing thereon; and

The North American Company having requested that the Commission issue its order on or before August 25, 1945; and

The Commission finding that the requirements of section 12 (d) and Rules U-43 and U-44 are satisfied, that no adverse findings are necessary thereunder, and that action upon said declaration should be accelerated, and the Commission deeming it appropriate in the public interest and in the interest of investors and consumers to permit said declaration to become effective;

*It is hereby ordered*, Pursuant to said Rule U-23 and the applicable provisions of said act and subject to the terms and conditions prescribed in Rule U-24 that said declaration be and the same is hereby permitted to become effective forthwith.

*It is further ordered*, And the Commission finds, that the distribution and transfer by The North American Company on October 1, 1945, to its common stockholders of record on September 4, 1945, of shares of common stock of Pacific Gas and Electric Company having a par value of \$25 per share, represented by Certificate No. NE-251755, in payment as a dividend to such stockholders, at the rate of one share of common stock of Pacific Gas and Electric Company on each one hundred shares of the outstanding common stock of The North American Company are necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935 and is a step in compliance with our order of April 14, 1942.
